

"My name is Mr Evans and I teach Year 4 at Meriden C of E Primary School. I have previously taught across both Key Stage One and Key Stage Two and I have a passion for mathematics teaching. I am really looking forward to making a difference in my role as Maths Lead, and I hope that my position as governor will help me to have a positive impact on the whole school. Outside of school you may see me out running or on the bike, or more likely in a playground buying ice creams for my own two young children."
