

Judy Hornigold BSc, PGCSpE, AMBDA, FHEA

I am an independent educational consultant specialising in dyscalculia and dyslexia and have been a Singapore Maths trainer, UK based Maths No Problem since 2014. I am particularly passionate about the teaching of maths and of finding ways to support learners with dyscalculia and general maths learning difficulties. Consequently, I have written the PGCert in Dyscalculia and Maths Learning Difficulties for Edge Hill University and an accredited dyscalculia course for the BDA.

I lecture on Inclusion for Edge Hill University and am an Associate Tutor for the BDA. I also deliver lectures and workshops throughout the UK and internationally. I have written several books on dyscalculia and maths generally, as well as a guide for parents of children with dyslexia.
