Programme Introduction:-

- An innovative anti bullying programme developed using cutting edge research on bullying and incorporating experiences from previous intervention programmes used around the world.
- Four key features:-
 - 1. Versatile practical materials***
 - 2. Virtual learning environment***
 - 3. An emphasis on the responsibility of every pupil in school***
 - 4. Holistic approach for staff***

Why Meriden?

- ✓ Despite all of the great work put into school since September, plus the positive message from HMI in May, we are still in need of a **robust teaching programme to support the needs of our children.**
- ✓ We need a strong, **visual message to support parents** also.
- ✓ Having rolled out Peer Mediators, this will also **support the lunchtime supervisors** in tackling incidents and identifying genuine cases of bullying from the usual playground fall outs.
