

**Pam Cooper**

I am a retired criminal lawyer and have lived in Meriden since my marriage in 1982 and became an LEA Governor in 1985. My son and daughter both attended Meriden School and for over fifteen years I volunteered in the classroom, as a result I got to know the school very well. During my time as a governor I have helped interview and appoint staff and have developed an interest in Special Educational Needs and liaise with the school's SENCO. The role of governor has changed greatly over the years and I am proud to still be associated with the school.
